P.O. Box 806  
Sacramento, California 95812-0806

Arnold Schwarzenegger  
Governor

### Stakeholder Workshop for Draft Portable Tanks Regulations: R-01-02

A Draft Portable Tanks Regulations Workshop will be held to gather input from affected stakeholders and other interested parties.

The Department of Toxic Substances Control (DTSC) Stakeholders' Workshop for Draft Portable Tanks Regulations will be held on:

Friday, January 30, 2004  
9:00 AM to 1:00 PM  
Cal/EPA Headquarters Building  
1001 I Street, 11<sup>th</sup> floor, Room 1110  
Sacramento, CA 95812

DTSC invites all interested stakeholders to this Workshop to discuss and gather stakeholder feedback to regulatory issues and approaches for implementation of these regulations.

#### Summary of the Draft Portable Tank Regulations:

The draft regulations clarify what a portable tank is and how it should be operated safely at a hazardous waste generator or storage and treatment facility. No standards were previously found in DTSC's regulations that specifically address portable tank systems. Similarly, portable tanks are not addressed in federal regulations. Portable tank systems were generally previously regulated as containers. In addition, these regulations establish clear standards for portable tank systems, removing confusion regarding which standards apply to portable tank systems. These regulations also clarify which requirements (tank versus container standards) apply to portable tanks.

If you have any questions about the workshop, please contact Hossein Nassiri at (916) 327-4493.
